ABOUT THE CMRCET

CMR College of Engineering & Technology (CMRCET for short) is sponsored by MGR Educational Society, which was established in 2002. The College is situated 20 Km away from Secunderabad Railway Station on Hyderabad - Nagpur National Highway (Medchal Road), Telangana State, India. The college is located in 25 acres of serene environment which is lush green and free of pollution. The college has nearly 28,070 Sq. m built up area for teaching and laboratory purpose. All Laboratories & workshops are well equipped conforming to the norms specified by AICTE and JNTU. With the development of new materials, analysis and construction techniques, the Civil Engineering field has advanced enormously in the recent years. Many innovative and scientific approaches have been developed in all the areas of Civil Engineering in the last decade.

ABOUT THE DEPARTMENT

Civil Engineers build the world's infrastructure, which encompasses Railways, Highways, Bridges, Water-works, Skyscrapers, Canals, Wharves, Industrial Buildings, Rapid Transit Systems, and Power Plants etc. They deal with the design, construction, maintenance and repair of structures. There are opportunities galore for civil engineers, with new players entering the market and more large-scale developments announced around the globe. Department is offering B.Tech & M.Tech (SE) programs and dedicated to delivering technically proficient and ethically responsible engineers to the society. Top notch laboratory resources are essential for the development of a modern day technocrat. The Department boasts of well equipped laboratories, manned by highly qualified and competent staff. The various laboratories that come under the purview of the Department
