Strategic Perspective Plan for the Academic Year 2017-18

Sl. No.	Date of the Event	Dept./Club	Name of the Event	Details
1	23/09/2017	CYBER SECURITY	Creak of IP Address	Cyber Security Club of Creak of IP Address in Systems Now a Days When a computer is attacked, it's often possible to obtain an IP address that's close to the attacker's location.
2	02/12/2017	CYBER SECURITY	Hacking in browser	The fact that hackers hail from nearly every longitude and latitude, provides a true meaning to "hack the planet". With the online nature of hacker-powered security programs it is easy for hackers to find new and potentially lucrative opportunities from anywhere.
3	11/03/2018	CYBER SECURITY	Trace of IP Address	You can use the traceart command to find the hostname of the IP address that the hacker is using to access your machine. You can also put the IP address on the trace-route tool on the Princeton website. Another alternative is to use the GEOIPTool to get a rough idea where the hacker is located.
