Dear Sir,

**Sub:** Requesting permission to conduct an EQUAL OPPORTUNITIES CENTRE (EOC) event on 03/09/2014

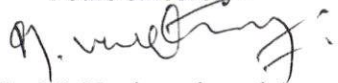

I, Dr. M. Venkateshwarlu convener of the EQUAL OPPORTUNITIES CENTRE (EOC) and associate professor of civil department earnestly requesting your permission through IQAC Co-Ordinator to conduct an EOC event.

- a) Date of Event: 03/09/2014
- b) Name of event: A Lecuture on "A seminar programme on personality Development" by Professor Venkateshara Rao, to create awareness among the students regarding personal development to provide the essential foundational elements and its benefits.
- c) Venue of event: Civil seminar hall Block-II
- d) Target audience: students
- e) Resources required from college - Auditorium
- f) Faculty, staff and students involved in the event :list enclosed
- g) Invitation Letter to the Guest: Enclosed.

I request you to grant me permission and do the need ful.

Thanking you

Yours sincerely

  
(Dr M. Venkateshwarlu)

## Report of One day a seminar programme on personality Development

As part of a wakeup call to all students of CMR College of Engineering and Technology "A seminar programme on personality Development" is conducted on 3rd September, 2014.

The educational institutions providing Engineering education in India are churning out about >800000 Engineering graduates annually. The economic imperatives for Indian Higher Education System are: Developing a skilled, job ready and productive workforce by imparting technical and soft skills training; imparting education/skills that enable students to become entrepreneurs; and enabling Higher Education graduates to attain skills to meet the needs of the society and can become employable work force. Which is lacking in the present scenario Bearing this in mind a one day a seminar was held for the benefit of Students on 'Leadership and Personal Effectiveness with

Major objectives:

1. To develop leadership skills in the students;
2. To appraise students about the importance of communication skills, critical thinking skills, and collaborative skills;
3. To enable students to learn and *face* situations at individual level. :

The resource person of the a seminar was the professor Venkateshwa Rao .The Seminar was presided over by the principal of the college Dr M. Ramaliga Reddy expressed the importance of leadership and personal effectiveness in present environment. The introductory remarks were made by the IQAC Coordinator of the college A Kotishwar, all the HODs and faculty members were participated of this seminar. Prof M Sudhakar highlighted on the change in the mindset to face competition and enhance leadership skills.

The program aim to create awareness on different situations of the institution, which a student might or may undergo in their walk of life, raised on day to day life in the question hour students ask the speakers queries.

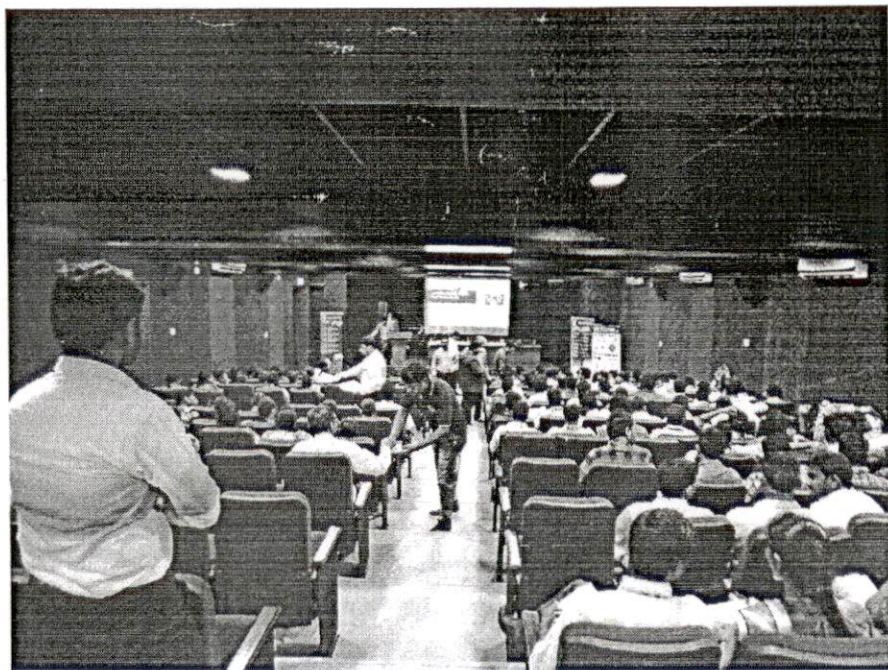

. The feedback obtained from the students revealed that:

1. The program was given light on communication and personal development.
2. Leadership skills;
3. They expressed to conduct workshops/ seminars of this kind.

### Outcomes:

Participants understand the use of skills in their carrier and professional life.

## Report On

### Awareness programme on Different schemes available for SC, ST, Minorities and PWD persons from state Government

Date: 15<sup>th</sup> October, 2014

The objective of the Equal opportunity Cell is to help and empower the students. In this connection Equal Opportunity cell made an attempt create awareness about the financial assistance for the students in their career. On 15th October, 2014 Equal opportunity cell of CMRCET organized an awareness program on how to apply Scholarships through Internet facility. The awareness created on scholarships available to the students are listed below

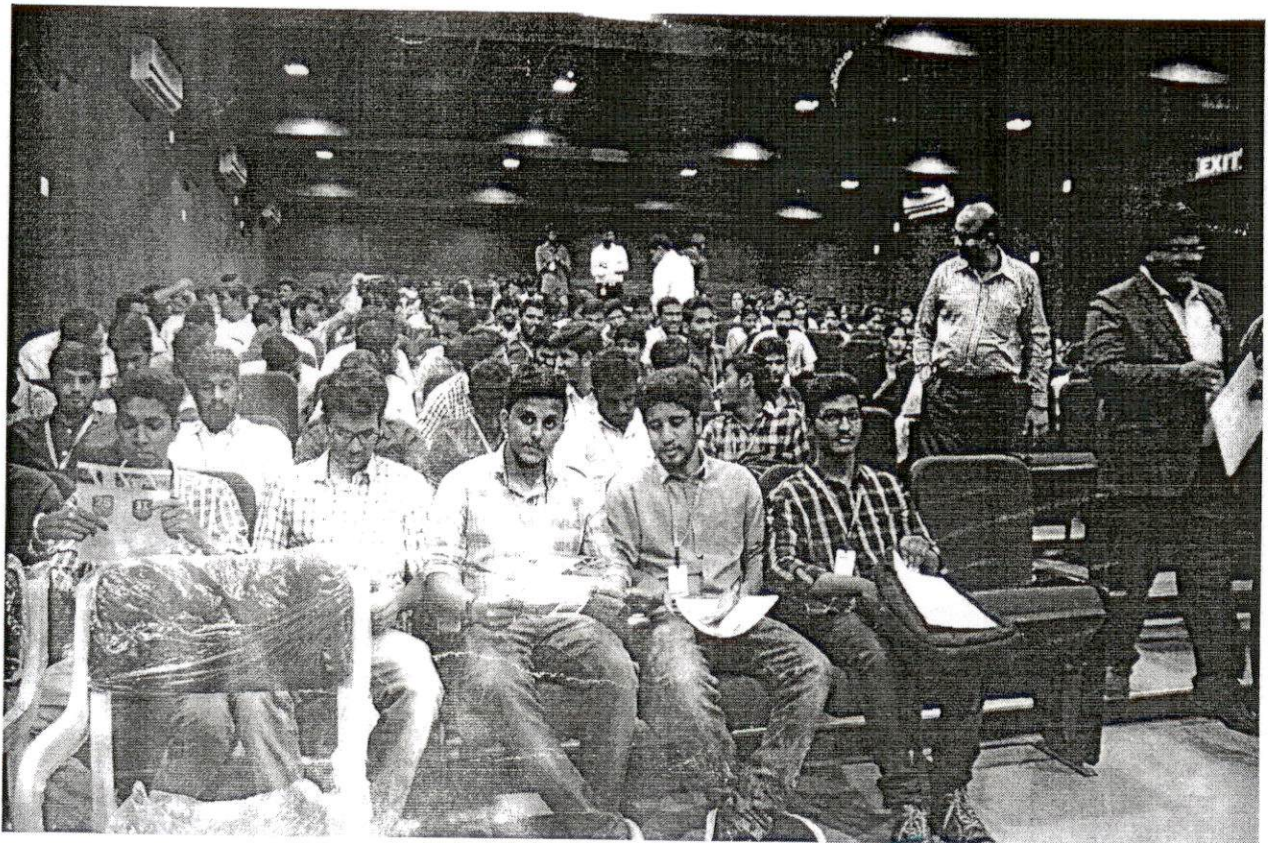

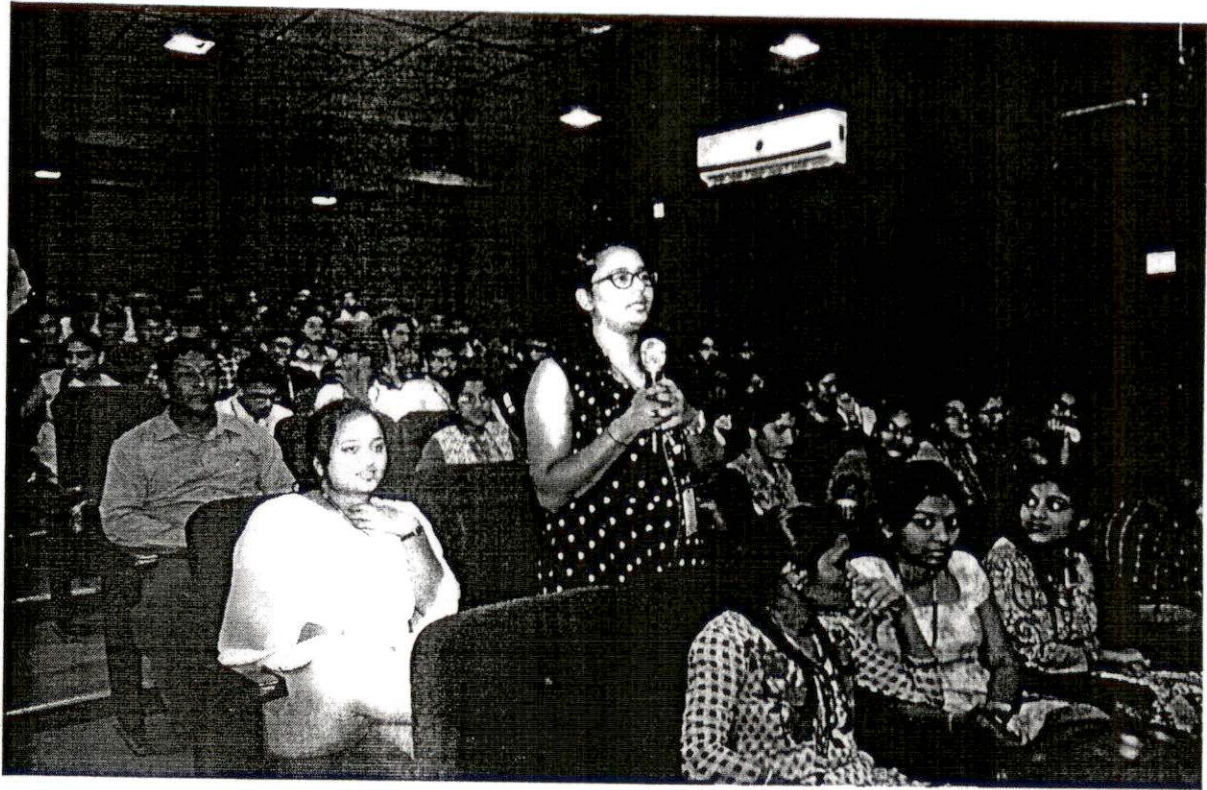

- Academic scholarships
- Average academic performance scholarships
- Athletic scholarship
- Scholarships for minorities
- Scholarships for women
- Creative scholarship
- Unusual scholarships
- Community service scholarship

The students were told about the importance of scholarships in pursuing their academics and later in their careers. Moreover it is extremely costly to pursue higher studies abroad. Thus scholarships play an important role in any student's life. Applying online for scholarships is a very useful and time saving tool. As many sections of the society are not in a position to educate their children on their own, the Government of India made various types of scholarships available. Thus there are scholarships exclusively for women, SC/STs, and other economically weaker sections of the society. Professor Srinivas Rao explained the importance to under the benefits which can be availed in their carrier.

- Dr M. Ramalinga Reddy Principal of CMRCET spoken on this occasion with the students how the scholarships given by the Govt benefits to melt their financial requirements using the Govt schemes.

### Road safety awareness

A Seminar on "Road Safety for Divyangs" held at CMRCET, Hyderabad on March 23, 2015 by Professor B Prasad gave informative lectures to the students.

They informed the students that owing to the violation of traffic rules on roads by underage driving roads have become very unsafe, especially persons. They presented shocking statistics connected with road rage. According to Road Accident Statistics India 1214 road crashes occur every day in India. 20 children under the age of 14 die every day due to road crashes in the country. One serious road accident in the country occurs every minute and 16 people die on Indian roads every hour.

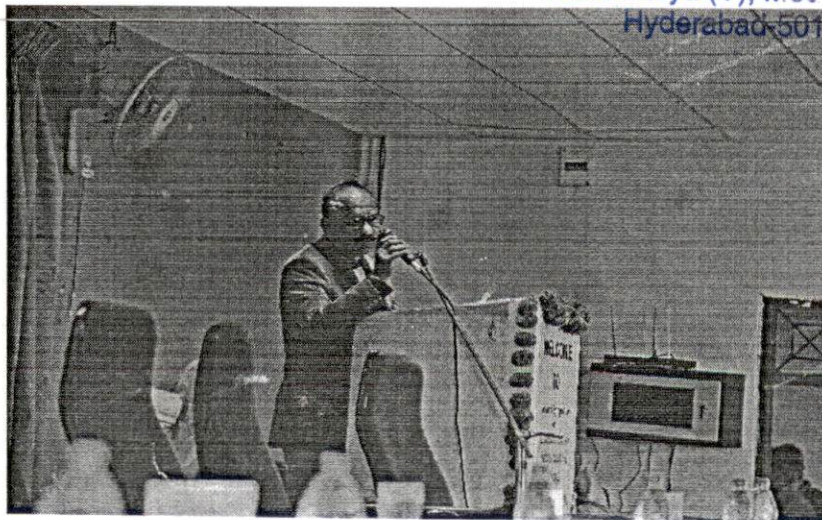

They made students aware of the newly passed Road Safety Juvenile Driving Laws. According to the recently implemented Road Safety Bill 2016 the guardian /owner shall be deemed to be guilty in cases of offences by the juveniles and juvenile shall be tried under JJ act. The representatives from the Traffic Police Ludhiana appealed to the students to follow traffic rules to maintain safety for one and all..

The students enjoyed the interactive session with professor Prasad and were inspired to take the message back home about how critical road safety is. They were given the responsibility of ensuring that their family members follow the rules of the road, as breaking rules might be dangerous or fatal. Professor B Prasad explained the risks of wheeling on the roads. He requested underage students not to drive vehicles on the road and to be civic conscious citizens.

Principal Dr M Ramaliga Reddy and professor Prasad flagged off the safety walk at which teachers, college bus drivers, cleaners and other support staffs were present. The students walked till the kandlakoya area and spread awareness by holding placards with messages of safety on the roads while driving and walking, shouted slogans and distributed pamphlets. The policemen who were on duty on Medchal Road, assisted in the smooth movement of traffic and safety of the students on the walk.

Venkat and Ramani students participated in the walk rallie and explained to traveler's about and wearing helmets.

**PRINCIPAL**  
**CMR COLLEGE OF ENGG. & TECH.**  
Kandlakoya (V), Medchal Road,  
Hyderabad-501401.

### **Benefits of Road Safety Barriers**

Roads and highways should be designed and constructed in a way that ensures and guarantees safe, effective, convenient and efficient transportation of people and different kinds of goods or materials. It is always recommended and it is expected for drivers to travel at speeds which are appropriate to the conditions of the roads in order to reach their final destination in a safe manner. Still, car accidents and crashes are common unwanted events. Every year the number of car crashes and accidents in Telangana state.

There are many reasons why car accidents happen on the roads, such as:

- Driver's driving habits or error
- Driving over speed limits
- Driver's fatigue
- Alcohol or drug consumption
- Mechanical failure of the vehicle
- Tough weather conditions such as rain, snow, wind etc.

  
**PRINCIPAL**  
**CMR COLLEGE OF ENGG. & TECH.**  
Kandlakoya (V), Medchal Road,  
Hyderabad-501401.

When drivers loose control over their vehicles, there are high risks of collisions and impacts with other vehicles or objects near the road. Therefore, the roads and highways need to be constructed and designed with safety road barriers. Road safety barriers are described as vehicle protection systems which are specially designed to protect the vehicles on the roads, to save many lives and to be maintenance free for at least 30-50 years.

### **Outcomes**

1. It recognises that prevention efforts not with standing, road users will remain fallible and crashes will occur.
2. It stresses that those involved in the design of the road transport system need to accept and share responsibility for the safety of the system, and those that use the system need to accept responsibility for complying with the rules and constraints of the system.
