Report on One day a seminar programme on personality Development

As part of a wakeup call to all students of CMR College of Engineering and Technology "A seminar programme on personality Development" is conducted on 2nd September, 2017.

The educational institutions providing Engineering education in India are churning out about >800000 Engineering graduates annually. The economic imperatives for Indian Higher Education System are: Developing a skilled, job ready and productive workforce by imparting technical and soft skills training; imparting education/skills that enable students to become entrepreneurs; and enabling Higher Education graduates to attain skills to meet the needs of the society and can become employable work force. Which is lacking in the present scenario Bearing this in mind a one day a seminar was held for the benefit of Students on 'Leadership and Personal Effectiveness with

Major objectives:

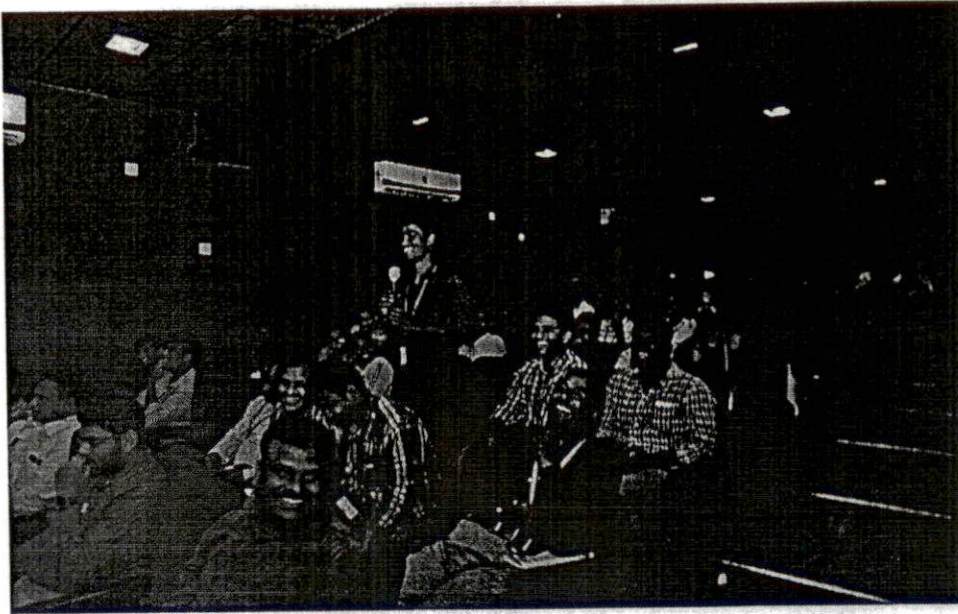

1. To develop leadership skills in the students;
2. To appraise students about the importance of communication skills, critical thinking skills, and collaborative skills
3. To enable students to learn and face situations at individual level.

The resource person of the seminar was the professor Dr. B Dean Kumar. The Seminar was presided over by the principal of the college Major. Dr. V. A. Narayana expressed the importance of leadership and personal effectiveness in present environment. The introductory remarks were made by the IQAC Coordinator of the college Kotishwar, all the HODs and faculty members were participated of this seminar. Dr B Lokeswara Rao highlighted on the change in the mindset to face competition and enhance leadership skills.

PRINCIPAL
CMR COLLEGE OF ENGG. & TECH.
Kandlakoya (V), Medchal Road,
Hyderabad-501401.

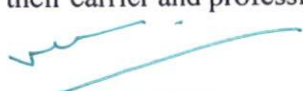

The program aim to create awareness on different situations of the institution, which a student might or may undergo in their walk of life, raised on day to day life in the question hour students ask the speakers queries.

. The feedback obtained from the students revealed that:

1. The program threw given light on communication and personal development.
2. Leadership skills;
3. They felt that there is a need to conduct more workshops/ seminars of this kind.

Outcomes:

Participants understand the use of skills in their carrier and professional life

Report on Entrepreneurship and incentives provided by state and central government”.

The objective of the Equal opportunity Cell is to help and empower the students. In this connection Equal Opportunity cell made an attempt create awareness about the financial assistance for the students in their career. On 4th January, 2018 Equal opportunity cell of CMRCET organized an awareness program on how to apply Scholarships through Internet facility by Associate professor Balaram. The awareness created on scholarships available to the students are listed below

- Academic scholarships
- Average academic performance scholarships
- Athletic scholarship
- Scholarships for minorities
- Scholarships for women
- Creative scholarship
- Unusual scholarships
- Community service scholarships

Economic and social backwardness prevents many students pursuing higher studies. An awareness program explaining the availability and eligibility conditions for such schemes really helps the students to overcome their problems.

Major Dr .V A Narayana principal of CMRCET spoken on this occasion about the proper utilization of scholarship schemes for the benefit of the students.

Report on Road safety awareness

A Seminar on "Road Safety for Divyangs" held at CMRCET, Hyderabad on March 23, 2015 by M.Kishan Nayak DTO Medchal gave informative lectures to the students.

They informed the students that owing to the violation of traffic rules on roads by underage driving roads have become very unsafe, especially persons. They presented shocking statistics connected with road rage. According to Road Accident Statistics India 1214 road crashes occur every day in India. 20 children under the age of 14 die every day due to road crashes in the country. One serious road accident in the country occurs every minute and 16 people die on Indian roads every hour.

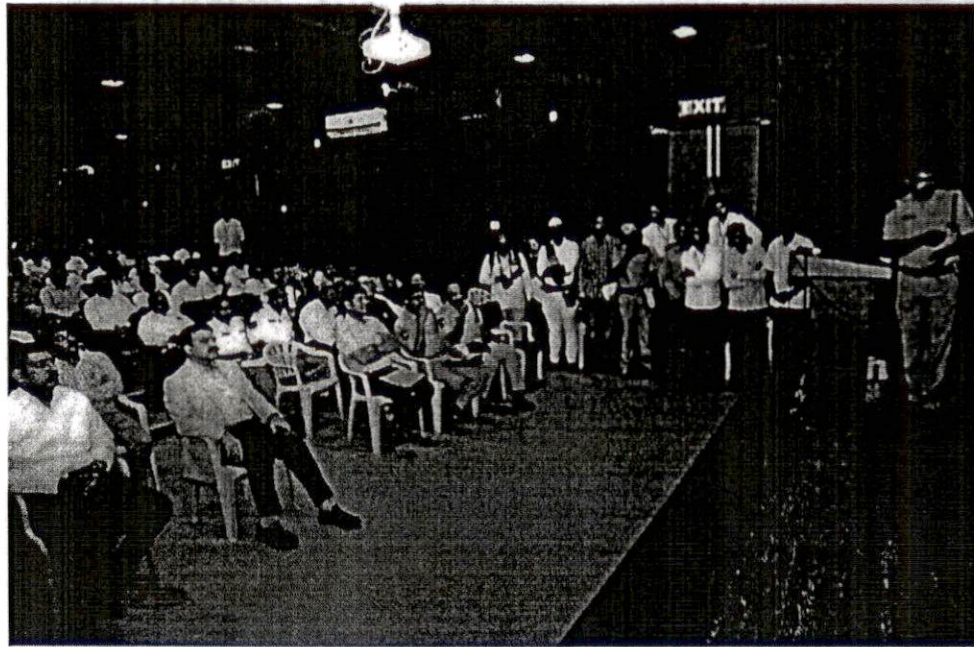

They made students aware of the newly passed Road Safety Juvenile Driving Laws. According to the recently implemented Road Safety Bill 2016 the guardian /owner shall be deemed to be guilty in cases of offences by the juveniles and juvenile shall be tried under JJ act. The representatives from the Traffic Police Ludhiana appealed to the students to follow traffic rules to maintain safety for one and all.

The students enjoyed the interactive session with M.V. Reddy medchal collector and were inspired to take the message back home about how critical road safety is. They were given the responsibility of ensuring that their family members follow the rules of the road, as breaking rules might be dangerous or fatal. Professor B Prasad explained the risks of wheeling on the roads. He requested underage students not to drive vehicles on the road and to be civic conscious citizens.

Principal Major Dr V A Narayana and M.Kishan Nayak flagged off the safety walk at which teachers, college bus drivers, cleaners and other support staffs were present. The students walked till the kandlakoya area and spread awareness by holding placards with messages of safety on the roads while driving and walking, shouted slogans and distributed pamphlets. The policemen who were on duty on Medchal Road, assisted in the smooth movement of traffic and safety of the students on the walk.

Benefits of Road Safety Barriers

Roads and highways should be designed and constructed in a way that ensures and guarantees safe, effective, convenient and efficient transportation of people and different kinds of goods or materials. It is always recommended and it is expected for drivers to travel at speeds which are appropriate to the conditions of the roads in order to reach their final destination in a safe manner. Still, car accidents and crashes are common unwanted events. Every year the number of car crashes and accidents in Telangana state.

There are many reasons why car accidents happen on the roads, such as:

- Driver's driving habits or error
- Driving over speed limits
- Driver's fatigue
- Alcohol or drug consumption
- Mechanical failure of the vehicle
- Tough weather conditions such as rain, snow, wind etc.

When drivers lose control over their vehicles, there are high risks of collisions and impacts with other vehicles or objects near the road. Therefore, the roads and highways need to be constructed and designed with safety road barriers. Road safety barriers are described as vehicle protection systems which are specially designed to protect the vehicles on the roads, to save many lives and to be maintenance free for at least 30-50 years.

Outcomes

1. It recognizes that prevention efforts notwithstanding, road users will remain fallible and crashes will occur.
2. It stresses that those involved in the design of the road transport system need to accept and share responsibility for the safety of the system, and those that use the system need to accept responsibility for complying with the rules and constraints of the system.
