Dear Sir,

Sub: Requesting permission to conduct an EQUAL OPPORTUNITIES CENTRE (EOC) event on 27/8/2019

I, Dr. M. Venkateshwarlu, convener of the EQUAL OPPORTUNITIES CENTRE (EOC) and Associate professor of civil department, earnestly requesting your permission through IQAC Co-Ordinator to conduct an EOC event.

- Date of Event: 27/8/2019
- Name of event: "Awareness Program on Empowering Engineering Students through Employability Skills" by Professor Praveen Raj saxena, to guide the students by creating awareness and guiding the students in skills and confidence to be a leader in the field of personal and organizational change.
- Venue of event: Civil seminar hall Block-II
- Target audience: students
- Resources required from college – Auditorium
- Amount Required : NIL
- Faculty, staff and students involved in the event :list enclosed
- Invitation Letter to the Guest: Enclosed.

I request you to grant me permission and do the needful.

Thanking you.

Yours sincerely

(Dr M. Venkateshwarlu)

Dear Sir,

Sub: Invitation to deliver "Awareness Program on Empowering Engineering Students through Employability Skills".

I, Dr M venkateshwarlu, convener of the EQUAL OPPORTUNITIES CENTRE (EOC) and Associate Professor of Civil Department earnestly request you to visit our college on 27/8/2019 at 2.30 PM to deliver "Seminar on Personality Development".

I request you to accept my request and visit the college for noble cause on the scheduled day to brief our students.

Thanking you

Yours sincerely

Seminar Program on Empowering Engineering Students through Employability Skills

EQUAL OPPORTUNITIES CENTRE (EOC) had organized Seminar on “Seminar Program on Empowering Engineering Students through Employability Skills” on 27th August.2019 for the B. tech students at seminar hall, Dept of civil, CMRCET. The objective of this seminar was to develop the students spiritually and build self-confidence, enhance self-esteem and improve overall personality. The programme aimed at grooming the students through sensitizing them about proper behavior, socially and professionally in both formal and informal circumstances. Prof. Praveen raj saxena were the resource persons on this special event.

Addressing the gathering Prof. Praveen raj saxena spoke on life skills. Life skills are abilities for adaptive and positive behavior that enables humans to deal effectively with the demands and challenges of life.

Seminar Program on Empowering Engineering Students through Employability Skills

A professional course program like engineering strives to get the maximum number of its students placed through campus interviews. While communication skills have been added in all the engineering courses with the aim to improve their performance in placement, the syllabus mostly concentrates on the development of four language skills. The students are not made aware of the employability skills and their significance. This essay intends to enlist the importance of skills and why students need to be aware of the skills they possess and how they can work on packaging their candidature around a few skills. The discussion starts by addressing the apparent gap between academic programs for engineering students and industry skills requirements. A list of vital employability skills from the standpoint of engineering students follows, with a discussion on how to potentially develop such skills through campus life. The essay stresses the role of academia in filling this gap by acting as facilitators in a three-step process (i.e., awareness, self-analysis, and acquisition). The author concludes that the combination of both employability skills along with an engineering degree should ensure students meet the high expectations of the employers. Presiding over the function, Ch Gopal Reddy garu, Secretary & Correspondent, CMRGL.exhorted the students to make use of the training offered by the College to prepare themselves to get employment in Corporates.

The students are expected to be ready to enter the industry. Yet, expectations from the multinational companies and growing competition have led to students' anxiety and failure in acquiring a job. In the rat race, individuality is often lost and students with technical training and average competencies dominate the list of degree holders. These engineers are assessed in interviews as the employers want to select people who are potential leaders and innovators, those who can change the shape of the world with their ideas and business acumen. Major Dr V A Narayana, Principal and trainer in his key note address said that a candidate must show various skills like communication, aptitude, attitude, computer skills etc. apart from curriculum. He is expected to show decent corporate etiquette at the time of interview itself, and hence training becomes very vital for graduates.

Outcomes:

The combination of these skills along with an engineering degree will ensure that students meet the high expectations of the employers. In an era of rapid change and fierce competition, their efforts to learn new things and acquire certain skills will not only make them confident and self-assured, but will also give them an advantage in the job interview. Employers clearly look forward to candidates who are focused and are passionate about the profession they aspire to enter; therefore, making an effort to hone their attributes can definitely improve their job prospects. Thus, the onus now is on academia to understand the needs of the industry and students by creating awareness and guiding the students in self-analysis and in acquisition of skills.

Report on Road Safety Awareness

A Lecture on “Road Safety for Divyangs” held at CMRCET, Hyderabad on 03rd December, 2019 by shyam sunder reddy traffic police who gave informative lecture to the students. He informed the students that owing to the violation of traffic rules on roads by the underaged driving roads has become very unsafe, especially persons.

The students enthusiastically participated in interactive session with shyam sunder reddy traffic police and were inspired with his words, participants recognized about how critical road safety is. The participants took responsibility of ensuring that their family members follow the rules for road safety, as breaking the rules might be dangerous or fatal.

Principal Major. Dr. V. A. Narayana and Dr. M. Vishnu flagged off the safety walk at college campus area and spread awareness by holding placards with messages of safety on the roads while driving and walking, shouted slogans. The policemen who were on traffic duty, assisted in the smooth movement of traffic and safety of the students. In the seminar, all the students explained about importance of wearing helmets to the participants.

Outcomes

1. It recognizes that prevention efforts notwithstanding, road users will remain fallible and crashes will occur.
2. It stresses that those involved in the design of the road transport system need to accept and share responsibility for the safety of the system, and those that use the system need to accept responsibility for complying with the rules and constraints of the system.
