Sub: Requesting approval to participate in different Events under SAEINDIA COLLEGIATE CLUB OF CMRCET in the A.Y:2016-17 – Reg.

Respected Sir,

We wanted to bring to your notice SAEINDIA COLLEGIATE CLUB OF CMRCET organizes different events for the students every year, right from the beginning of the Academic year, with prior permission. Herewith I am submitting the proposed list of events we want to participate for the A.Y: 2016-17.

Hence, I request you to kindly permit to organize and participate in the below events.

The Events are scheduled as follows:

1. October : Effi-cycle (12/10/2016 to 16.10.2016)
2. January : M-BAJA (22/01/2017 to 29/01/2017)

Thanking you,

Sub: Permission to participate in "Effi-cycle".
Req. – Reg.

Respected Sir,

As per the approval from the IQAC for the events submitted to conduct in the A.Y: 2016-17, a team from SAEINDIA COLLEGIATE CLUB OF CMRCET will participate in Effi-cycle. I request your kind approval to conduct the event.

- Dates of the Events: 12/10/2016 to 16/10/2016
- Name of the Event: Effi-cycle
- Importance: To bring out awareness in students in automotive industry.
- Venue: Lovely professional university, Jalandhar, Punjab.

Faculty members who are involved in the SAEINDIA COLLEGIATE CLUB OF CMRCET will be taking care of their team and the student members of the team will help the smooth conduction of the event.

Thanking you sir,

Event report

Near 100 teams of top engineering institutions including IITs, NITs, ITS from across India are exhibiting motorized expertise of engineering students of LPU & Society for Automotive Engineering-Northern India Section (SAENIS) have joined hands to host the event. The event is supported by Maruti Suzuki, Indian Oil Corporation and ICAT.

Promoting renewable and alternative energy usage in the country, an eco-friendly national competitive event 'EFFICYCLE 2015' is inaugurated today at LPU campus. Near 100 teams of top engineering institutions including IITs, NITs, ITS, Government institutions from across India are exhibiting motorized expertise of engineering students. Society for Automotive Engineering-Northern India Section (SAENIS) and Lovely Professional University have collaborated to host this event. The event is supported by Maruti Suzuki, Indian Oil Corporation and ICAT. LPU Chancellor Mr. Ashok Mittal, Pro Chancellor Mrs. Rashmi Mittal, Director ICAT Mr. Dinesh Tyagi, GM ICAT Mr. UD Bangale & DGM R&D Maruti Suzuki India Mr. Jitendra Malhotra were Guests of Honor on the inaugural day. DGM Mr. Malhotra shared: "Through national level events like Efficycle-2016 (presently 7th in a row), SAENIS and Maruti Suzuki provide excellent opportunities to the students towards their skill building and sensitization for alternative energy sources as they get prepared to take up their role in the industry. The three-day event will be concluded on 18th October with 40 Kms competitive race among participating teams' Effi-cycles. Inaugural day had two types of Competitions-Static and Dynamic. For static, participating teams presented marketing strategy, design and cost evaluations of their respective Effi-cycles. Under dynamic part different teams went for technical inspection and different tests for brakes, gradient, electric drive, acceleration, utility, and maneuverability.

The team acquired these positions in their respective events.

Design evaluation: Cleared

Cost evaluation: cleared

Endurance: couldn't participate because of electric drive issue

Build quality: presented

Event report

From January 22nd to January 27th 2015 SAEINDIA M-BAJA was conducted at NATRAX, Madhya Pradesh, there were over more than 150 teams participated in the event. The main motto of this event is to allow the student of different colleges to design, analyze and fabricate their vehicle in order to bear different situations a vehicle undergo in the terrain showed by the officials. A team of 25 members were formed from CMR College of Engineering & Technology. The team did well in the virtual round which is the first stage of competition where the team need to show their design, calculations, working procedure they are doing to fabricate their vehicle. The teams which board members feel that they are suitable for participation are shortlisted from the list. The team got shortlisted in the virtual and did get allowance to fabricate the vehicle. The team did fabricate the vehicle and taken to the event.

In the event there were number of events they are mainly classified into static and dynamic events. In static events the teams are made to send design report, cost report, design validation plan (DVP), DFMEA. The team which performs best is awarded in its segment and ranking is given accordingly.

Our team has secured these ranks in each of these events

Design evaluation: In this event the teams are need to explain the panel members regarding their design procedure and justify their design in different aspects. And later need to answer the questions asked by the judge.

Position in design evaluation: 64th

Cost presentation: in this event teams need to produce the total cost of the vehicle fabricated including different parts which are manufactured earlier. Every team must produce the bills of each and every part which are evaluated by the judge. The team which fabricates the vehicle in lowest cost gets to win the event.

Position acquired in cost presentation: 22nd

Sales presentation: In sales presentation teams are given a task of making 1000 vehicles per year. This event tests the managerial skills of the teams they need to show their factory design and place at which the factory needs to be built. And cost for this all equipment. Then just after the factory design they need to start the vehicle manufacturing and should consider cost for making each vehicle. Then the vehicle needs to be sold for a reasonable price to the customers. Taking all these aspects into consideration teams need to present a report. The team which gives the best performance in this event is awarded

Position acquired in sales presentation: 10th

Just after the static events dynamic events start in dynamic events, we have different competitions like braking test, maneuverability test, suspension and traction test, acceleration test, sledge pull test, go green test and endurance.

Our team secured these positions in each respective event as follows

Brake test: Team need to start from still point and should stop from 45kmph to 0 within 1.5m teams which pass this test are allowed to participate in other dynamic events.

Maneuverability test: In this event vehicles steering is tested where it is made through pass through sharp corners and unsteer able paths. The vehicle which completes this path in shortest time is awarded.

Maneuverability position: didn't participated

Suspension and traction test: It is the most difficult event where the vehicle is made to pass through difficult terrains and uneven terrains, logs etc. This event tests the vehicle suspension system, rigidity, strength of the vehicle.

Position in suspension and traction: didn't participated

Sledge pull: the vehicle is made to pull up to 1ton weight.

Go green award: This event tests the emission level which come out through the exhaust of the vehicle the teams which has the lowest emissions is awarded with go green award.

Endurance: This is the final event where all the vehicles are assembled in and made to complete laps through the given time. The team which makes the highest lap is awarded.

Endurance position: 88th

Overall position: 54th
